388 PRESTON (George). Catalogus Plantarum, quas in Seminarium Chirurgis dicatum transtulit Georgius Prestonus Praefectus Horto Urbis Edinburgenae Auctoritate Plantis omnifariis instructo.

Edinburgh, James Watson, 1712.

£ 12

Latin names in italic letter on versos, English in roman on rectos. 12mo, contemporary panelled calf. An interesting list of 443 plants and 100 trees. Among less familiar names are Sweet Maudlin or Apothecary's Shop (*Ageratum*); Lady's Bed Straw (*Gallium*); and Deadly-Carrot (*Thapsia*). Among plants and trees imported from America are *Battata Virginiana* (Potatoes); *Nicotiana Virginiana* (Virginian Tobacco); and *Rhus virginiana* (Virginian Sumach or Buck-Horn Tree).

From the Traquair House Library, with bookplate of Charles, Earl of Traquair, 1708, on flyleaf.
